

Geometric Classification

Hexagonal

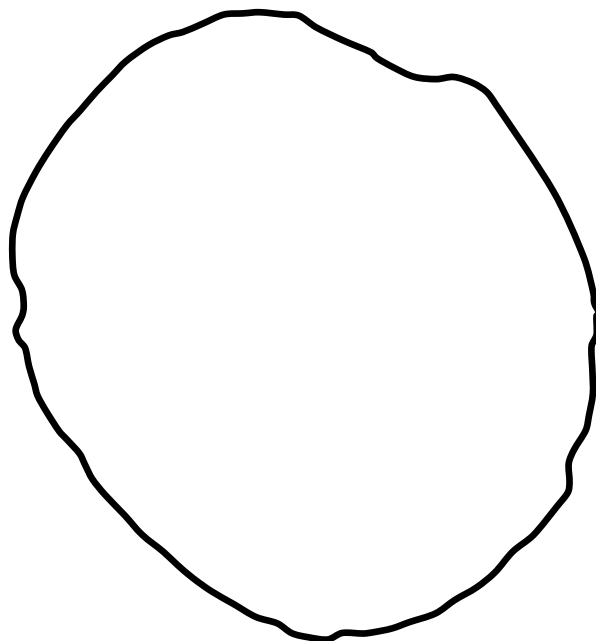

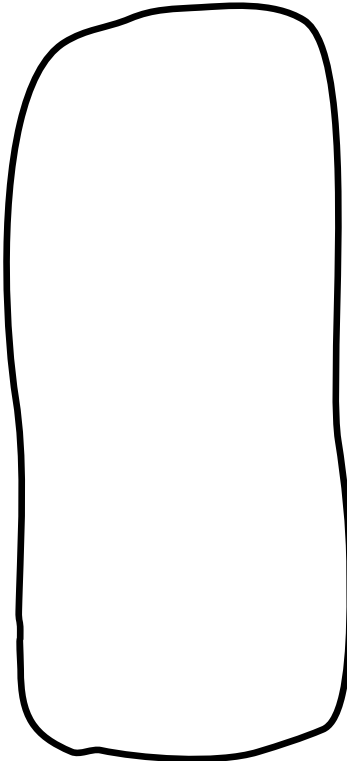

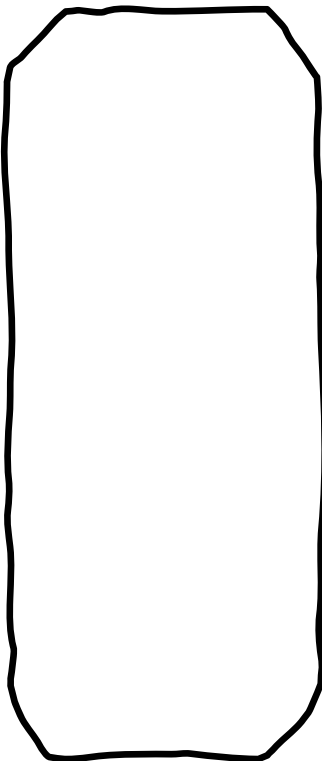

Ellipsoid

Roughness Index

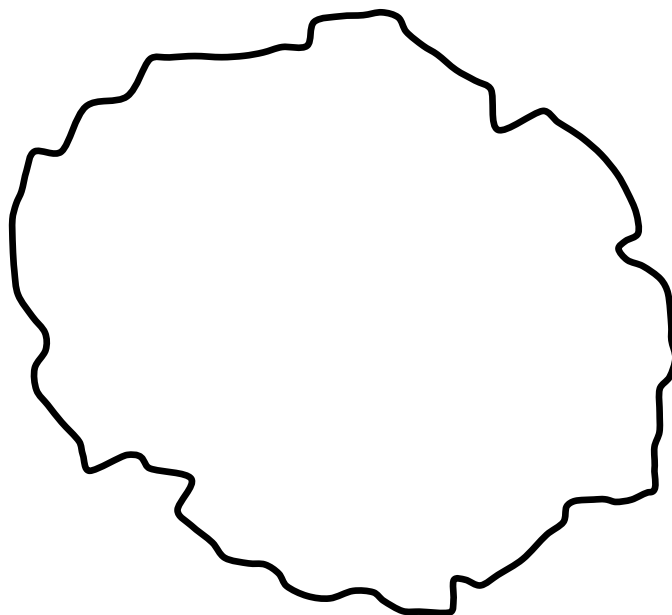

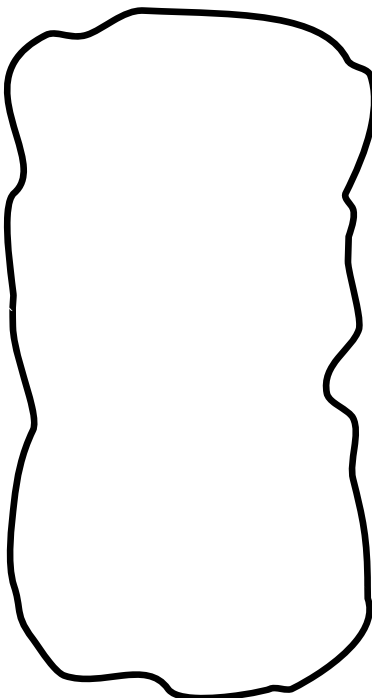

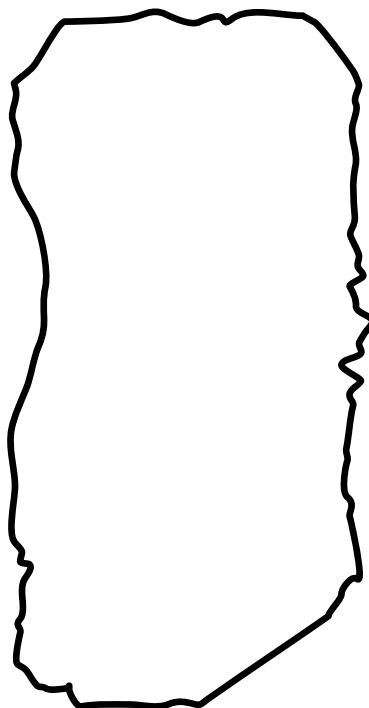

Smooth

1

No large cracks, pits, bumps, chunks missing or other defects.

Rough

2

Defects take up a significant portion of the surface and/or there is a chunk missing from the grain.

A

Sharp, straight, and/or flat edges and corners.

B

Rounded and/or lumpy but identifiable faces and corners.

C

No corners or faces, grain is completely rounded.
